

I have received a letter from K-Love stating that you are considering a low power fm which would effect us listening to our favorite radio station. K-love blesses us each day with their Christian music and it would be very heartbreaking to have it taken away from us. This music is a testimony of God for us at our business and in our home to the many people who hear it. Please reconsider this decision based on the amount of people the radio station reaches every day with the word of God. Thank You
